Health care for you

We believe that you deserve health care that suits you, close-by and in a way that works for you. Together we determine what you need and who you need.

We use all of our expertise to help you and we look for cooperation, for example with your family and friends, your GP, the municipality and home care. To make sure you can live the life you want as long as possible. That is what we stand for as Jeroen Bosch Ziekenhuis.

Simply, because you matter to us.
